## Sacred Valley Journey August 4-14, 2012 Salkantay, Umantay Expedition August 14-20, 2012

The Mountains of Peru cradle ancient Inca sites, with precision stone work that rivals any on earth.

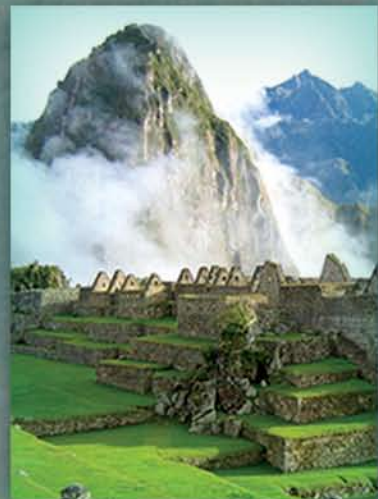

From the pre-Inca monoliths of Sacsayhuaman to the finest works of Machu Picchu, Peru offers exquisite and unique exploration. Peru is a mystical place where mountains soar to 20,000 feet, condors fly, and stones speak!

You will share in ceremony with the Q'ero Shaman, learn from the wisdom of the land, the people, the mountains, and enjoy the bustling markets.

We are delighted to have a special friend and guest joining us this year. Mr. Charley Thweatt will bring his music to the Mountains of the Andes. He will offer his inspired acoustic music, and invite our participation on a wave of musical energy.

We invite you to join Wake and Kinlen, with Charley, on this trip of a lifetime
